Thema Prof. Dieter Scholz - Safe Landing

Beschreibung Dieter Scholz is professor of Aeronautical Engineering at Hamburg University of Applied Sciences. He's also an outspoken critic of aviation industry strategies. He will present to Safe Landing on some issues around aircraft design and a critique of different technologies presented within industry "Sustainable Aviation" roadmaps.

His website can be viewed here: <http://www.profscholz.de/> (click the Union Jack for English)

His Youtube channel is here:

<https://www.youtube.com/channel/UCsPrNncOWAkzod53ZpOYUew>

He will use this file as a baseline for our (easy going - we've told him our group isn't all engineers so he will try to keep the technical stuff high-level) conversation/lecture:
